2022
Instituto Superior Técnico

"Verão na ULisboa"

Intership
2019
Instituto Ciências Sociais

"Tecnologia e ferramentas digitais na produção de conhecimento em ciências sociais"

Professional Qualification
2018
Rumos

"IJ-GAME DEVELOPER - Cria os teus póprios vídeo jogos"

Projects

- Website built with Node.JS (back-end) with CRUD and authentication systems in order to store data to a MYSQL database (with ORM).

- Website built with Node.JS (back-end) with a public API to get the data from the generated links, the data was stored in an MYSQL database with ORM.

- Program built with python to format the text with an max length of 79 characters per line.

All these projects and a lot more are available at my github page and/or in my youtube channel.
